2 Lanes	1	2										
3 Lanes	2	3	1

11 Lanes	6	7	5	8	4	9	3	10	2	11	1	
12 Lanes	6	7	5	8	4	9	3	10	2	11	1	12

Lane preferences refer to the order of assigning lanes when seeding. For example, in events using 8 lanes, the default standard lane preferences will be lane 4 for fastest, lane 5 for 2nd fastest, lane 3 for third, lane 6 for 4th, etc.

If this is not what you want for 8 lanes, then change row 8 above as you like.

For example, if you have a 10 lane pool and are using only the middle 8 lanes, change the 8 lane row to 5,6,4,7,3,8,2,9 and in the Events Menu set-up each event's number of lanes to be 8 standard lanes instead of 10 standard lanes.

Note: In any given row, no number may be repeated and you may use any set of numbers from 0 to 12 in any row. If a row is Yellow, it is being used by at least one event.

Click the Default button to re-set all lane preferences to the normal settings.
